Course Introduction:

No business can survive very long without an effective programme of controls over the parts and materials that are used in producing or distributing goods and services of the firm.

Like many other things that depend on human interpretation, "control" means different things to different individuals. On this course you will learn how a smooth and cost-effective operations can be managed, with enough products on hand to satisfy needs without stockpiling too much. This course will discuss all aspects of inventory management, including common terms, the inventory cycle, how to maintain inventory accuracy, and what some of the latest trends are.
