## **Course Introduction:**

People who work as trainers are often put into difficult situations without much understanding of what training is or how to do it well. We know that being a good trainer is the result of developing skills to bring information to an audience. This information will then engage, empower, and encourage continued learning and development. This course will give you the skills that you need so that your students not only learn, but also enjoy the process, retain information shared, and use their new skills back in the workplace.
